

WILSON'S SCHOOL ADMISSION CRITERIA and ARRANGEMENTS 2026-2027

ADMISSION CRITERIA FOR ENTRY TO THE SIXTH FORM (YEAR 12) IN SEPTEMBER 2026

All boys in the current Year 11 at Wilson's School who meet the normal academic entry criteria will continue into the Sixth Form, if they wish¹.

Wilson's School welcomes applications from boys from other schools who are moving from Year 11 into Year 12 and have a date of birth from 1 September 2009 to 31 August 2010. However, the School does not guarantee a minimum number of places for external applicants. If places are available once all internal candidates who have met the entry criteria are admitted, they will be offered to external applicants who have met the entry criteria in rank order of total GCSE points score calculated in accordance with the provisions below. External candidates are not accepted into Year 13.

In the event that external candidates have the same rank order of total points score, the application will be determined by a random ballot supervised by an independent person.

Offers for places in the Sixth Form will be made on the basis of the total points score at GCSE (full course only) achieved in Mathematics, the highest English grade (Language or Literature) and the best six results from the remaining subjects listed below.

English Language; English Literature; separate sciences (namely Biology, Chemistry, Physics) or Combined Science (Science and Additional Science); French; German; Spanish; (other Modern Foreign Languages will only be considered if they form part of the standard curriculum at the candidate's current school); History; Geography; Business or Economics; Computing; Art; Design and Technology; Music; Latin; Classics; Religious Studies; PE.

An A or B at AS level in any of the above subjects will be counted as 9 points. Subjects or qualifications not listed are not accepted. Only **one** qualification for each of the subjects listed above is taken into consideration

The same normal entry requirements for both internal and external candidates are:

- a candidate must achieve a total grade points score of at least **58** using the points score calculation described above;
- a candidate must achieve a grade 6 or above in English (Language or Literature) and Mathematics;
- a candidate must achieve at least grade 7 in the subjects he wishes to study;

¹ Examination board reviews can bring about a change of grade in individual subjects. If a Wilson's student does not achieve the entry requirements on results day, but subsequently meets the standard, he will be admitted up to and including the last day of the second full week of term.

where there are special entry requirements to specific courses as set out in the table below, these entry requirements must be met to study the subject.

Example:

	Grade	Points	Counted?
Mathematics	7	7	Yes
English Language	6	6	
English Literature	8	8	Yes
Biology	8	8	Yes
Chemistry	9	9	Yes
Physics	8	8	Yes
German	9	9	Yes
DT	6	6	
Business	7	7	Yes
History	7	7	Yes

This candidate achieves a total points score of: **63**

Places will be offered subject to availability on the candidate's chosen courses.

SPECIAL ENTRY REQUIREMENTS TO COURSES		
Subject	Grade 7 or above required in this subject at GCSE?	Special Entry Requirements above and beyond the grade 7 at GCSE?
Art	Yes	Where Art has not been taken at GCSE, a portfolio of evidence of suitable range of skills will be considered.
English Literature	Yes	At least a grade 7 in English Language or English Literature.
French	Yes	Not applicable.
Geography	Yes	Not applicable.
German	Yes	Not applicable.
Latin	Yes	Not applicable.
